"BILL" ATKINSON NOMINATED AS CONSERVATIVE CANDIDATE

At one of the largest-attended Conservative conventions held in this riding, W. Atkinson, of Chilliwack, pioneer auctioneer of the Fraser Valley, won the unanimous nomination of the Conservative party for Chilliwack constituency. Six names were proposed, J. F. Cook, Kilgord; J. McLeod, S. Carson, P. Wilson, F. B. Stacey and W. Atkinson, all of Chilliwack. The final ballot resulted in 58 votes for Atkinson and 54 for McLeod.

Several prominent Conservatives from the Coast were present, including R. H. Pooley, leader of the Provincial Opposition, who was addressing the meeting as we go to press, Don Anderson and other.

Mr. Stacey occupied the chair, Mr. Stacey assisting as secretary. 112 accredited delegates attended the Gaisley hall here being used.

Start Ditching For New Prairie Road
Ditching for the road-bed of the new section of highway across Sumas prairie has commenced, the cut having been made on both sides of the road to a distance of about one mile this end of the pumping station. The new section of highway starts from the pumping station, skirts the base of Sumas mountain east of the canal, and intersects Delair road near the Rudge farm.

At Monday's meeting of the local Board of Trade, Mr. H. M. Ord, manager of the Canadian Hop Company, was admitted to membership. The meeting was poorly attended.

Born.—To Mr. and Mrs. William Moore, of Kilgord, in M.S.A. hospital on May 9, a daughter.

Kilgord soccer team journeyed to Ladner on Saturday last, playing a match with the team there, which resulted in a win for Kilgord, with a score of 1 goal to nil.

Four Days of Unusual Entertainment in Abbotsford on Saturday, Monday, Tues., Wed., May 19-21-22-23 THE CANADIAN CHAUTAUQUA

THE PATTON-NEWELL ARTISTS

Lowell Patton pianist and dramatic reader with Fenwick Newell, tenor.

The Program

First Day Afternoon—Rest Evening—"The Bubble"—A play that crowds Towering Situations, Tense Moments, Galloping Glee and Heart-Catching Contrasts close upon your Emotions. Admission \$1.00

Second Day—The Artists Duo, featuring Lowell Patton, pianist; Fenwick Newell, tenor—two exceptionally brilliant artists who have the power to make the best in music most attractive and popular.

Lecture: "Success with Ease" by Geoffrey F. Morgan, an exceedingly fluent and popular lecturer. Being a Welshman he exhibits all that eloquence and fervor which characterizes the Welsh. Mr. Morgan is above all things practical and his lecture will appeal directly to the men and women of his audiences. Admission 50c

Evening—Lecture: "Education or Catastrophe" by Mrs. D. Pirie Beyea. Mrs. Beyea was the first woman to enter the world war from this continent. She is a grand-daughter of Sir George Alsbury, one time governor of the West Indies. Throughout her life she has known the extremes of poverty and wealth, has travelled extensively throughout the world, and brings a message which is the product of experience. Admission 75c.

Third Day—Afternoon—Sheehan Concert Company, presenting a popular, artistic and versatile programme—Theresa Sheehan, dramatic reader and impersonator; Ethel McPhee, soprano soloist, and Nell Richeson, violinists. This programme combines all that is finest and best. These artists have had a succession of triumphs in their concert tours, and we are assured they will repeat those triumphs throughout Western Canada. Admission 50c.

Evening—Prelude: Sheehan Concert Company. Lecture: "Awakening China" by Dr. Tehyi Hsieh, one of the foremost Chinese of his age. He has seen diplomatic service in the interest of his country, is a graduate of Cambridge University, a member of the finest legal associations of the English speaking world, a gifted speaker and a popular and authoritative author. Admission 75c.

Fourth Day Afternoon—Amos Seabury, one of the world's most versatile Kiddle's entertainers. He is a master at Juggling and brings into play an old-fashioned Punch and Judy Show. Admission 25c

Evening—"An Evening in Hawaii" will constitute an exquisite, dramatic and musical sensation by a superb native company of Hawaiian Singers under the able direction of Albert Vierra. \$1.00

SEASON/ TICKETS: Adults \$2.50, Children \$1.00 Note: Adult Tickets after Opening Day \$3.00, Children, six to fifteen, Single Admission 25c, Afternoon Programs 3.00 p.m. Evening Programs 8.00 p.m. (Tax extra where levied by Province)

Mann Block Ready Next Week

Conceded the most substantially-built and conveniently-planned little apartment and business block in the Fraser Valley, E. W. Mann's new structure on Essendene avenue, Abbotsford, is almost ready, and some of the tenants will be comfortably installed by next week, when Contractor Nels Olund expects to have all interior work completed.

Two commodious stores are provided on the ground floor, each 60 feet long, with large warehouse space at the rear of each. The larger of these is being leased by O. W. Benedict, who opens his grocery there on Saturday. A meat market may be started in the other, as it is equipped with a suitable cooler.

Upstairs, the front suite will be occupied by Drs. McDiarmid and Quinn as a joint medical and dental office. Three residential suites are also provided, two of three rooms each, to be occupied by G. Trussell and W. Polson, and one of two rooms. Built-in features, modern plumbing, electrical convenience plugs, adequate light and ventilation are among the advantages of these quarters.

The block is particularly well situated on a central business site, covering a vacant area in the main street which was for years an eyesore to residents. Mr. Mann is to be congratulated on his enterprise, an abundance of tenancy applications proving the commercial soundness of the venture.

High School Teachers Resign

At the Abbotsford School Board meeting this week, the resignations of Mrs. Blackie and Miss Benedict, the local high school teachers, were accepted.

ABBOTSFORD

Abbotsford needs a publicity booklet, and now is a favorable time to expound the advantages of the town and district. Such a publication has never been produced for the community, an effort to this end failing last spring in competition with a booster supplement in a city paper.

To date the local provincial police office has collected approximately \$12,000 in automobile licenses.

E. W. Mann has added a new 1 1/2-ton Federal truck to his equipment.

Mrs. W. Roberts and Mrs. J. Wilson attended the W.B.A. rally in Vancouver this week.

Mrs. Alex. Beaton is a patient in the local hospital with bronchitis.

A Mothers' Day social is being given by members of the W.B.A. at the home of Mrs. Roberts on May 29.

Mr. B. Bolster's sister is reported ill and in a Victoria hospital.

Ten members of Upper Sumas W.I. attended the exhibition of old time quilts and Chinook rugs at the Hudson Bay store on Saturday. They were served tea in the Georgia hotel as guests on South Vancouver W.I. At Fry's Corner they joined with the California Elk caravan, 100 cars strong, en route to the Elk circus in Vancouver.

A half-hour service is now being run by the "Eena" between Rosedale and Agassiz. The "Eena" is 90 feet long and 29 feet beam, steel hull, equipped with two 90-hp. engines.

Born.—To Mr. and Mrs. Ernest Milward, of Aldergrove, in the M.S.A. hospital, on May 8, a son.

VIERRA'S HAWAIIANS

Presenting an evening in Hawaii on the last night.

MRS. D. PIRIE BEYEA
Lecturer on Chautauqua, "Education or Catastrophe."

Camera Club Opens Office Here

Mr. Weir has taken out membership in the Camera Club of B. C. for this district. There are many advantages offered by the Club for every one who

owns a camera. The first exhibits of amateur photography will be held in the Canadian Pacific exhibition. There is a big prize list. We want pictures of this district. Mr. Weir can give you full particulars regarding the Club.

The Single Track Concrete Road

The day of the gravelled road is passing. Always an expensive road to maintain in good condition, very often impassable at certain seasons of the year even under the best conditions, it does not meet the demands of today. Where years ago horse drawn vehicles carried light loads, where the question of time taken for the trip was not of much moment, the gravelled road met the conditions to a certain degree. Today the auto track has taken the place of the horse drawn vehicle, speed is a constantly increasing factor in getting products to market. Gravelled roads will not stand up under such traffic. Their day is gone save in the opening of newly developed rural districts — and even here their day will not last long.

Permanent roads cost money — and the best roads the cheapest in the end. How is a district which has to bear the cost of permanent paving to meet the demands and yet not rush beyond its means? This problem has been solved in many parts of the country by the laying of a single track concrete road as the start, thus affording modern traffic convenience and facilities for loaded vehicles for the time being, against the day when, with the development of the district, the other side of the road may be paved and a complete road thus provided.

This system of single track concrete roads is now being laid in many parts of the country, chiefly in districts where the community depends for its prosperity upon the speedy and economical marketing of its products or where development has reached a certain stage but not sufficient to warrant the expense of a full width permanent road. Thousands of miles of single track concrete roads are now in use and giving satisfaction. Communities find that mixed traffic up to about 1000 vehicles per day can be handled on such roads. The right hand side of the road as it leads to the centre of population is usually paved, thus giving the vehicles loaded with products the advantage which they should enjoy.

There is real economy, as well as convenience in the building of such roads as the cost of maintaining a concrete road is practically nothing for the first five years and only a minimum thereafter as compared with the constant work and heavy expense to keep a gravelled road in nearly passable condition. A single track concrete road also materially reduces the maintenance cost on the gravelled section.

A single track concrete road is used as an illustration of the idea because of the superiority of this type of road among permanent roads. Such a road is permanent in the widest sense of the term as it is a solid slab of concrete on which there is practically no wear. To the modern traffic it gives a firm gripping hold that make the miles easy. It is an all weather road as the heat of summer or the cold of winter are all the same to it. Its gritty surface holds the tire and makes it a true "safety first" road as it prevents skidding to the greatest degree. Costing no more than other types of permanent road it offers advantages which all ratepayers or persons using roads should consider.

Any reader interested in single track roads or the advantages of Concrete Roads should write Portland Cement Ass'n, 718 Granville St. Vancouver B.C. and obtain literature which will be both interesting and of practical benefit.

Railway Construction in the West

Only a few years ago there was a feeling throughout Canada that the construction of railways in the Dominion had been rather overdone. This opinion was freely stated by many men in public life, by bank presidents and financiers, and found expression in newspapers all over the country. The statement was frequently made that Canada had built railways fifty years in advance of the time when they would be needed and the population and productive capacity of the country warranted. The greatest financial danger confronting the Dominion, it was alleged, was its heavy commitments on account of railways.

The fact that Canada possesses the greatest railway mileage per capita of any country in the world, and the further fact that a few years ago during the war the Canadian Northern, Grand Trunk and Grand Trunk Pacific Railways got into financial difficulties and had to be taken over by the Dominion Government, and that for some years following during the post-war depression the Canadian National was operated at a heavy financial loss, no doubt accounted for these rather pessimistic views. An entirely different opinion exists today.

When the C.P.R. was first projected the same faint-hearted views prevailed. The idea of a transcontinental railway across Canada from the Atlantic to the Pacific, crossing thousands of miles of undeveloped prairie land and over the Rocky Mountains, was ridiculed in the English press as the dream of madmen, and even in Canada it was predicted that such a railway would never earn the cost of its axle grease. The world realizes today how false all these dire predictions have proven to be.

The opinions expressed only a few years ago during the anxious days of the war and the world depression which followed are proving to be equally erroneous.

In a most instructive address before the Canadian Club at Regina recently, Mr. Cyril Young, of the Industrial Development Department of the Canadian National Railways, stated that for hundreds of miles along the main line of the new transcontinental, through the clay belt of Ontario, the railway was earning an operating surplus, while bringing about settlement and building up important industries, giving to Canada what heretofore it has lacked, depth in addition to its immense width.

In the past, Canada has boasted of its boundaries resting upon two oceans, east and west. Now, with the rapid pushing forward of the Hudson Bay Railway, Canada looks forward with eager anticipation and confidence to the day not far distant when its commerce will likewise pass through a third ocean on the north. And even before that railway is completed to tide-water, a branch line is being rushed to completion in order to handle the enormous traffic which will result from the development of the Flin Flon and other mining areas of the north which, it is predicted, will rival the richest mineral areas in the known world.

Today, instead of believing that railway construction has been overdone in Canada, the two great railway systems of the Dominion are steadily increasing their construction programmes. Last year Parliament authorized an extensive branch lines construction programme for the Canadian National, largely in Western Canada, and providing for the building within three years of some hundreds of miles of new railways. That work, which was started last year, is to be pushed with vigor during 1928.

Nor does the C.P.R. lag behind. The annual report of that Company issued last month records the fact that during 1927 no less than 203 miles of new branch lines were graded and track laid on 170 miles, while for the year 1928 the directors recommend the building of no less than eleven extensions in the provinces of Alberta and Saskatchewan involving the construction of an additional 247 miles of new lines.

Not to be outdone by the West, the Ontario Government is steadily pushing its system northward towards Hudson Bay, while branch feeders are spreading out into districts where mining developments are taking place.

The Government at Ottawa is confronted with applications for new railway charters for lines in northern Saskatchewan, Alberta and British Columbia aggregating thousands of miles with a view to providing for the opening up and development of the north country and the creation of new outlets to the Pacific.

These are the answers now being given to those who predicted disaster for Canada on account of its railway construction of a few short years ago. Take Saskatchewan as an example. Youngest among the provinces it already enjoys a railway mileage second only to that of Ontario, and during this year of 1928 work will be in progress upon approximately 500 miles of new branch lines, not including the Hudson Bay Railway and the Flin Flon branch, both of which will directly serve the Province.

And as if to provide the final answer to the faint-hearted of a few years ago, the Canadian National has turned its operating deficits into substantial operating surpluses, surpluses sufficiently large to meet all the interest payments on bonds and debentures held by the public, while, through the encouragement given to settlement and industrial development all over the country, the Federal Government is receiving a substantial, albeit indirect, return for the money Canada has invested in that system.

Railway development, past, present, and future, is the foundation upon which Canadians are erecting a strong, prosperous, and ultimately self-contained nation, a nation that is destined to occupy a place in the very front rank of world powers.

The first known deposit of helium gas in Europe has been found at Russelsheim, Baden, in Germany, 600 meters under surface.

A motoring journal suggests that the radiator should be more artistic. After all, it is often the first thing about a car that strikes you.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let us show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Western Canada Livestock Union

Annual Convention For 1929 Will Be Held At Edmonton

The 1929 annual convention of the Western Canada Livestock Union, will be held in Edmonton, it was decided at the recent session of this organization, which was held in Vancouver. R. A. Wright, of Drinkwater, Saskatchewan, has been re-elected president of the organization for the coming year. J. L. Walters, of Clive, is the provincial vice-president for Alberta, Olaf Olafson, of Mortlach, occupies the same position for Saskatchewan, and George Gordon, of Oak Lake, for Manitoba. C. M. Learmonth, of Regina, continues as secretary of the Union for 1928.

A SPRING TONIC AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening tired nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Centre, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about and doing my housework left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition when I began taking Dr. Williams' Pink Pills. I soon found the use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders.

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Growth Of Catholic Church

Catholics In United States Now Total Nearly Twenty Million

There are 19,689,409 Catholics in the United States, the official Catholic directory for 1928 shows. This is an increase of 205,753 over last year.

The total of Catholic churches in the U.S. was listed at 16,293, with 25,773 priests. Of the latter, four are cardinal-archbishops, thirteen archbishops, and 91 bishops.

A Foe To Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Heavy Apple Production In Okanagan

It is estimated that there will be an apple production of 1,075,000 boxes in the southern part of the Okanagan Valley, British Columbia, this year. The estimate is based on present excellent prospects, all conditions in the orchards being of a favorable nature. Peaches, apricots and cherries also give promise of heavy yields.

Theatres and movie houses of New York have 1,500,000 patrons daily. There are 208 theatres and 580 movie houses with a seating capacity of 858,973.

People used to think the world was flat. Then it was found to be round. But it's still just a little crooked in spots.

In parts of North Siam both parties to a lawsuit are put under water, and the one staying under the longest wins the suit.

Large Population For Canada Is Foreseen

Dean Of B.C. University Also Predicts Stupendous Growth In Industry

Dipping into the future of Canada, Dean R. W. Brock, of the faculty of applied science, University of British Columbia, before the Canadian Club at Kamloops, foresaw a population in the Dominion of 200,000,000 and a stupendous growth in industry and foreign trade never before seen in the history of the world. Dean Brock based his assumptions on analysis of existing conditions in Europe, in relation to temperature, rainfall, coal, resources and elevation.

From these ratios could be established the potential population and Canada's could be estimated conservatively as above. This took no heed of the vast northern empire.

A population of 30,000,000 was forecast by the dean for southern British Columbia within a generation or two.

In the last one hundred years the population of the world had increased two and one half times and Europe was near the saturation point. Countries having similar meteorological conditions and still open to emigration were Canada, South America, South Africa and Australia. Of these Canada had the greatest advantages, being nearest to Europe, a location in the northern hemisphere and possessing ample resources.

Taking Walk To France

Massachusetts Man Expects To Reach Paris In December 1929

With only a small haversack slung across his back, Owen C. Eastman, hiking from Salem, Mass., to Paris, France, reached Winnipeg, about eight days behind his original schedule. He reported that he had been set back in his 15,000 miles tramp by two blinding blizzards in Eastern Canada.

His mapped route will carry him through British Columbia, the Yukon and to Alaska from where he proposes to cross the Behring Straits to Cape Deshnef, Siberia.

Mr. Eastman, who left Salem on January 16, last, has hopes of reaching Paris by Christmas, 1929.

Songs Longest Remembered

Not In Long Program But Those Heard By Chance

Let any man shut his eyes and remember the occasion when he was most moved by music. How many of those occasions were concerts in large halls or moments at musical parties. And how many were chance songs in the streets of in inns, or a blend of voices on a lake at night, or a chorus in some mountain hostel? A long program of music is like a large gallery of pictures or a museum full of sculpture. It defeats its own purpose. A tune or a picture should be a full meal for the soul, the effect of which will only be spoiled by over-eating.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Recipes For This Week

(By Betty Barclay)

DINNER PAIL DELIGHT

- 1 cup sugar.
- 3 cups flour.
- 2 teaspoons baking powder.
- Pinch of salt.
- 1/2 cup shortening.
- 1/2 cup nectar raisins.
- 1/2 teaspoon cinnamon.
- 1/2 teaspoon nutmeg.

Sift flour, sugar, baking powder and salt together; add other ingredients. Then add enough water to make a paste. Roll out on board, cut with biscuit cutter and bake 15 minutes.

CHOCOLATE JUNKET

- 1 junket tablet.
- 1 pint milk.
- 2 squares chocolate.
- 3 tablespoons sugar.
- 1 teaspoon vanilla.

Heat the milk until lukewarm; add the sugar, stir until dissolved. Melt two squares of chocolate in a half cup of the warm milk and boil a moment; add to it carefully the remainder of the milk, the vanilla and the dissolved tablet; stir and pour at once into dessert glasses. Serve with sweetened cream or custard sauce.

The normal atmospheric pressure on the body at sea level is 14.7 pounds per square inch.

Were it not for a man's faults he might live and die without ever hearing his name mentioned.

Minard's Liniment for cuts and bruises.

THE EXTRA STAMINA You Need For Spring Driving

Equipping with Gum-Dipped Tires is an investment in extra safety, speed, comfort and economy. That is why thousands of motorists throughout the country use these tires.

On wet, slippery streets and highways—around sharp turns—maneuvering in and out of traffic—stopping suddenly—you can always depend on the powerful Firestone non-skid tread to hold without slip or skid.

Supporting this safety tread is the special Gum-Dipped carcass, built of cords dipped in a rubber solution which saturates and insulates every fibre of every cord with rubber. This minimizes the friction and heat of high speed service, and strengthens the whole structure of the tire to withstand heavy strains.

Your local Firestone Dealer will serve you better and save you money. See him today.

Canada's Water Power Resources

Of the 11,911,039,000 kilowatt hours of electricity generated in Canada last year, almost 99 per cent. of the total was hydro-electric. Fuel plants generated only 1.4 per cent. It is estimated that the water power of Canada would warrant the installation of about 43,000,000 h.p. At present only 4,883,266 h.p. is under installation for electric power.

The Oil For The Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Sheffield, which now has a population of 500,000, was once a little Norman settlement and later a pleasant country place.

The Farmyard Hen Produced In Canada Last Year Over 253 Million Dozen Of Eggs

Some one has figured that if the eggs laid in Canada in 1927 were placed end to end they would girdle the universe four and a half times. It certainly staggers the imagination to comprehend over three million eggs or 115,000 miles of them. And these are the farm eggs only. Dear knows how many more thousands of miles should be added for the eggs laid in poultry houses in the cities and suburban areas in Canada, but the number must be considerable. All of them, whether from farm or city, disappear down the national gullet at the rate of 6,000 per minute. The rate is of course much faster at meal times, for these figures are on a 24-hour basis. Still there are not enough to satisfy the national appetite and some eggs have to be imported into Canada.

Canadians are the greatest egg-eaters on the face of the globe and consumption has been increasing tremendously, especially since egg-grading regulations came into force. It is estimated that Canadians now consume something like 337 eggs per capita per annum. Production of farm eggs in 1927 equalled 320 eggs per capita. While production is increasing rapidly, principally through the breeding of better hens rather than increasing the flocks, consumption is increasing at a still more rapid rate as indicated by the excess of imports over exports of eggs.

Canada imported roughly 3 1/2 million dozen eggs in 1927, and exported less than half a million dozen. Excess of imports over exports rose by a million dozen over the previous year. These are figures on eggs in the shell. Eggs other than in the shell or n.o.p. as they are shown in trade statistics, are also imported into Canada in some volume, especially in recent years. Most of the eggs in this class come from China and the total amount imported in 1927 amounted to slightly over 2 million pounds, compared with 1.3 million pounds in the previous year.

The unfavorable trade balance resulting from excess of imports over exports of eggs amounted to roughly \$1,700,000 in 1927. This is an increase over 1926 of upwards of a million dollars. Considered by themselves these figures may appear large but they fade away by comparison with a farm egg production in 1927 of over 253 million dozen valued at over \$80,000,000. The long and short of it is that Canada just barely failed to meet her egg requirements last year by about 3 1/2 in-the-shell eggs per capita to which must be added the importations of preserved eggs amounting to perhaps two eggs per capita. Domestic egg production failed to meet the national appetite therefore by roughly one-half dozen per capita—a trifling amount it is true, but the shortage is increasing.

What is the outlook? Can Canada meet her own egg requirements in the future? Can she regain her lost export trade in eggs? In regard to the first of these questions, farm egg production is increasing very rapidly, in fact there has been a gain of fifty per cent. since 1921. In the same time the number of hens etc. on Canadian farms has increased by only 35 per cent., showing that the production per hen has increased considerably since 1921, due to the rearing of better birds for egg-production. The process of weeding out undesirable birds and substituting hens of proven high-production strain appears to have borne excellent results in the past year, an increase of 6.8 per cent. in production being recorded for 1927 over 1926, while the number of hens etc. in farm flocks increased by only one-sixth of one per cent. Even without increasing the farm flocks the industrious biddies of 1927 just about kept up with increasing population and the increasing appetite of Canadians for eggs. There is still room for very great improvement in the farm flocks from the egg-production standpoint, but the process cannot go on indefinitely and the farm flocks must eventually be increased to keep up domestic supplies of eggs if consumption per capita goes on climbing.

If Canada had the eggs, she could no doubt find a market for them in Great Britain, says the Department of the Interior, through its Natural Resources Intelligence Service. In fact the market for her surplus eggs has always been there, but since 1902 the exportable surplus has never amounted to much. But just imagine the magnitude of the market in the United Kingdom and what could be done with poultry in Canada if prices were attractive. The United Kingdom spent over \$90,000,000 a year on im-

ported eggs in 1925 and 1926. The Imperial Economic Committee reports that requirements from home and Empire sources are 5,700 million eggs a year or 475 million dozen—nearly twice Canada's farm egg production—this with a consumption of only 125 eggs per capita. The system of uniform grading and government certification to which they have been subjected has enabled Canada's eggs to command a premium over all other eggs on the British market. If enough of them were to be had, John Bull might contest Jack Canuck's title to champion egg-eater of the world. But as it is only 5 out of every thousand eggs consumed in Great Britain, according to last reports, come from Canada. The United Kingdom itself supplies 433; Irish Free State, 95; China, 138; Denmark, 121; Russia, 47; Netherlands, 35; Poland, 22; Egypt, 22; Belgium, 21. South Africa supplies 5 and Australia 3, so that Canada does not rank behind the other British Dominions, but what a big thing it might be for Canada if she could get a big slice of this egg trade and especially if consumption per capita increases as it has in Canada.

Good Future For Prince Rupert

Will Soon Become Important As a Grain Shipping Point

In a speech delivered at a banquet of Prince Rupert pioneers, Mr. McMorris, mayor of the city, regretted that he could not divulge the result of his recent visit to Ottawa until he had submitted a formal report to the Council, but he assured the gathering that the pioneers had made no mistake in establishing themselves in Prince Rupert. He predicted that within two years at least twenty million bushels of grain would be shipped overseas through Prince Rupert Port, and within the next ten years, all would be amply recompensed for their unswerving faith in the future of the city.

Exceedingly smart is the modish dress shown here, consisting of a tunic blouse and a separate slip. The loose sleeves are finished with shaped bands, the removable belt is fastened at the front with a buckle, and the tie-strings are attached at the shoulders. No. 1721 is in sizes 16 years, 36, 38, 40, 42 and 44 inches bust. Size 38 requires 4 1/2 yards 40-inch printed material, and 1 1/2 yards 40-inch plain. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical style, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

INTELLECTUAL BRITAIN

The Influence Of Environment In Racial Development

John Bull takes his place among the highbrows. Professor D. G. Parsons, English anatomist, says that for the past hundred years the skulls of his fellow-countrymen have been increasing in length and height. He adds that "this is a change which can be attributed only to environment, since it is repeating no known ancestral shape." The discovery is regarded as of sufficient importance to be laid before the Royal Anthropological Society. In such impressive fashion are we given to understand that the highbrows of today are the descendants of the lowbrows of yesterday. And we are told further that "the discovery of this growth upward is a strong argument for the influence of environment in racial developments and undermines faith in craniology as a guide to racial relationships."

Information is not at hand as to how Professor Parsons reached his conclusions. Was it a case of actually measuring the skulls of the departed, thus giving the lie to the assertion that dead men tell no tales? Did the anatomist carry science to the portrait gallery? Or was the hatters' guild asked to supply figures for use in the comparison? It is conceivable that the size of grandfather's hat might play its part in the undermining of craniology as a means of determining racial relationships.

But however the result was obtained, there is reason for rejoicing because of it. It is gratifying, everywhere but in Chicago, to be told that the English are becoming highbrows. But the information is, of course, to be understood as applying to the general. There were highbrows in Merry England in the brave days of old. No communication to the Royal Anthropological Society will cause Francis Bacon, John Milton and Shakespeare to be numbered among the lowbrows. — Boston Transcript.

Manitoba Mine Is Gold Producer

The Central Manitoba Mines have shipped 3 gold bricks since the mill began running a few weeks ago. Development work continues and ore reserves now in sight are sufficient to supply present capacity for three years. The ore is improving in quality with depth, T. C. Anderson, vice-president, states. Exploration with diamond drills is in progress on sections of the property that have not yet been opened up.

Speed Of Radio

If a bullet from a modern high powered rifle did not lose its speed, it could travel around the world in a little over 15 hours; while the impulse from radio-sending station would cover the same distance in less than one-seventh of a second.

Thermometers sent up in experimental balloons have noted a slight rise in temperature beyond the altitude of 6 1/2 miles.

IS VAST ORGANIZATION

Upkeep Of London Hospital Costs Million and a Quarter Dollars Yearly

"The Prince of Beggars" has made what he thinks may be his final appeal. In the last 30 years he has begged from the public many millions of dollars, and he is still asking for more. Surely, therefore, he deserves the title which the newspapers have bestowed upon him. "Deserved" is the right word, for he has begged wholeheartedly in a good cause—the cause of suffering humanity.

Viscount Knutsford is chairman of the London Hospital, the largest hospital in this country, which needs an income of over a million and a quarter dollars yearly for its upkeep. It was founded in 1740 with a subscribed fund of 100 guineas, and soon afterward the secretary had the unpleasant duty of informing his committee that they had just one shilling left in the bank.

But the hospital survived the crisis, and in the course of the ensuing 188 years has developed, after many trials and tribulations, into the present vast organization.

The London Hospital has eighteen operating theatres, fourteen special departments, a laundry that washes 3,000,000 pieces a year, four convalescent homes and surgical annexes, a nurses' training school, a medical college and laboratories and equipment as complete as money and brains can provide.

Such a huge institution, run on the voluntary system, with its doors thrown open generously to every sufferer from every disease, needs a huge income; and it is due mainly to the mendicant proclivities of "the Prince of Beggars" that it has been able to carry on its great work.

Becomes Paying Industry

Texas Oil Workers Make Money Selling Rattlesnake Skins

Dame Fashion has interfered with a pastime of workers in the oil fields of West Texas.

Men who work about the derricks once delighted in tossing sticks of dynamite or small cans of nitroglycerine into dens of rattlesnakes. But fashion decrees snakeskin shoes and gave the reptiles a commercial value. So the workmen, who have been none too prosperous because of the slump in the oil industry, now drag the snakes from the dens with hooked poles and collect the skins, which are dried in the sun and shipped to shoe manufacturing centres where they bring price which nicely augments the wages of the laborers.

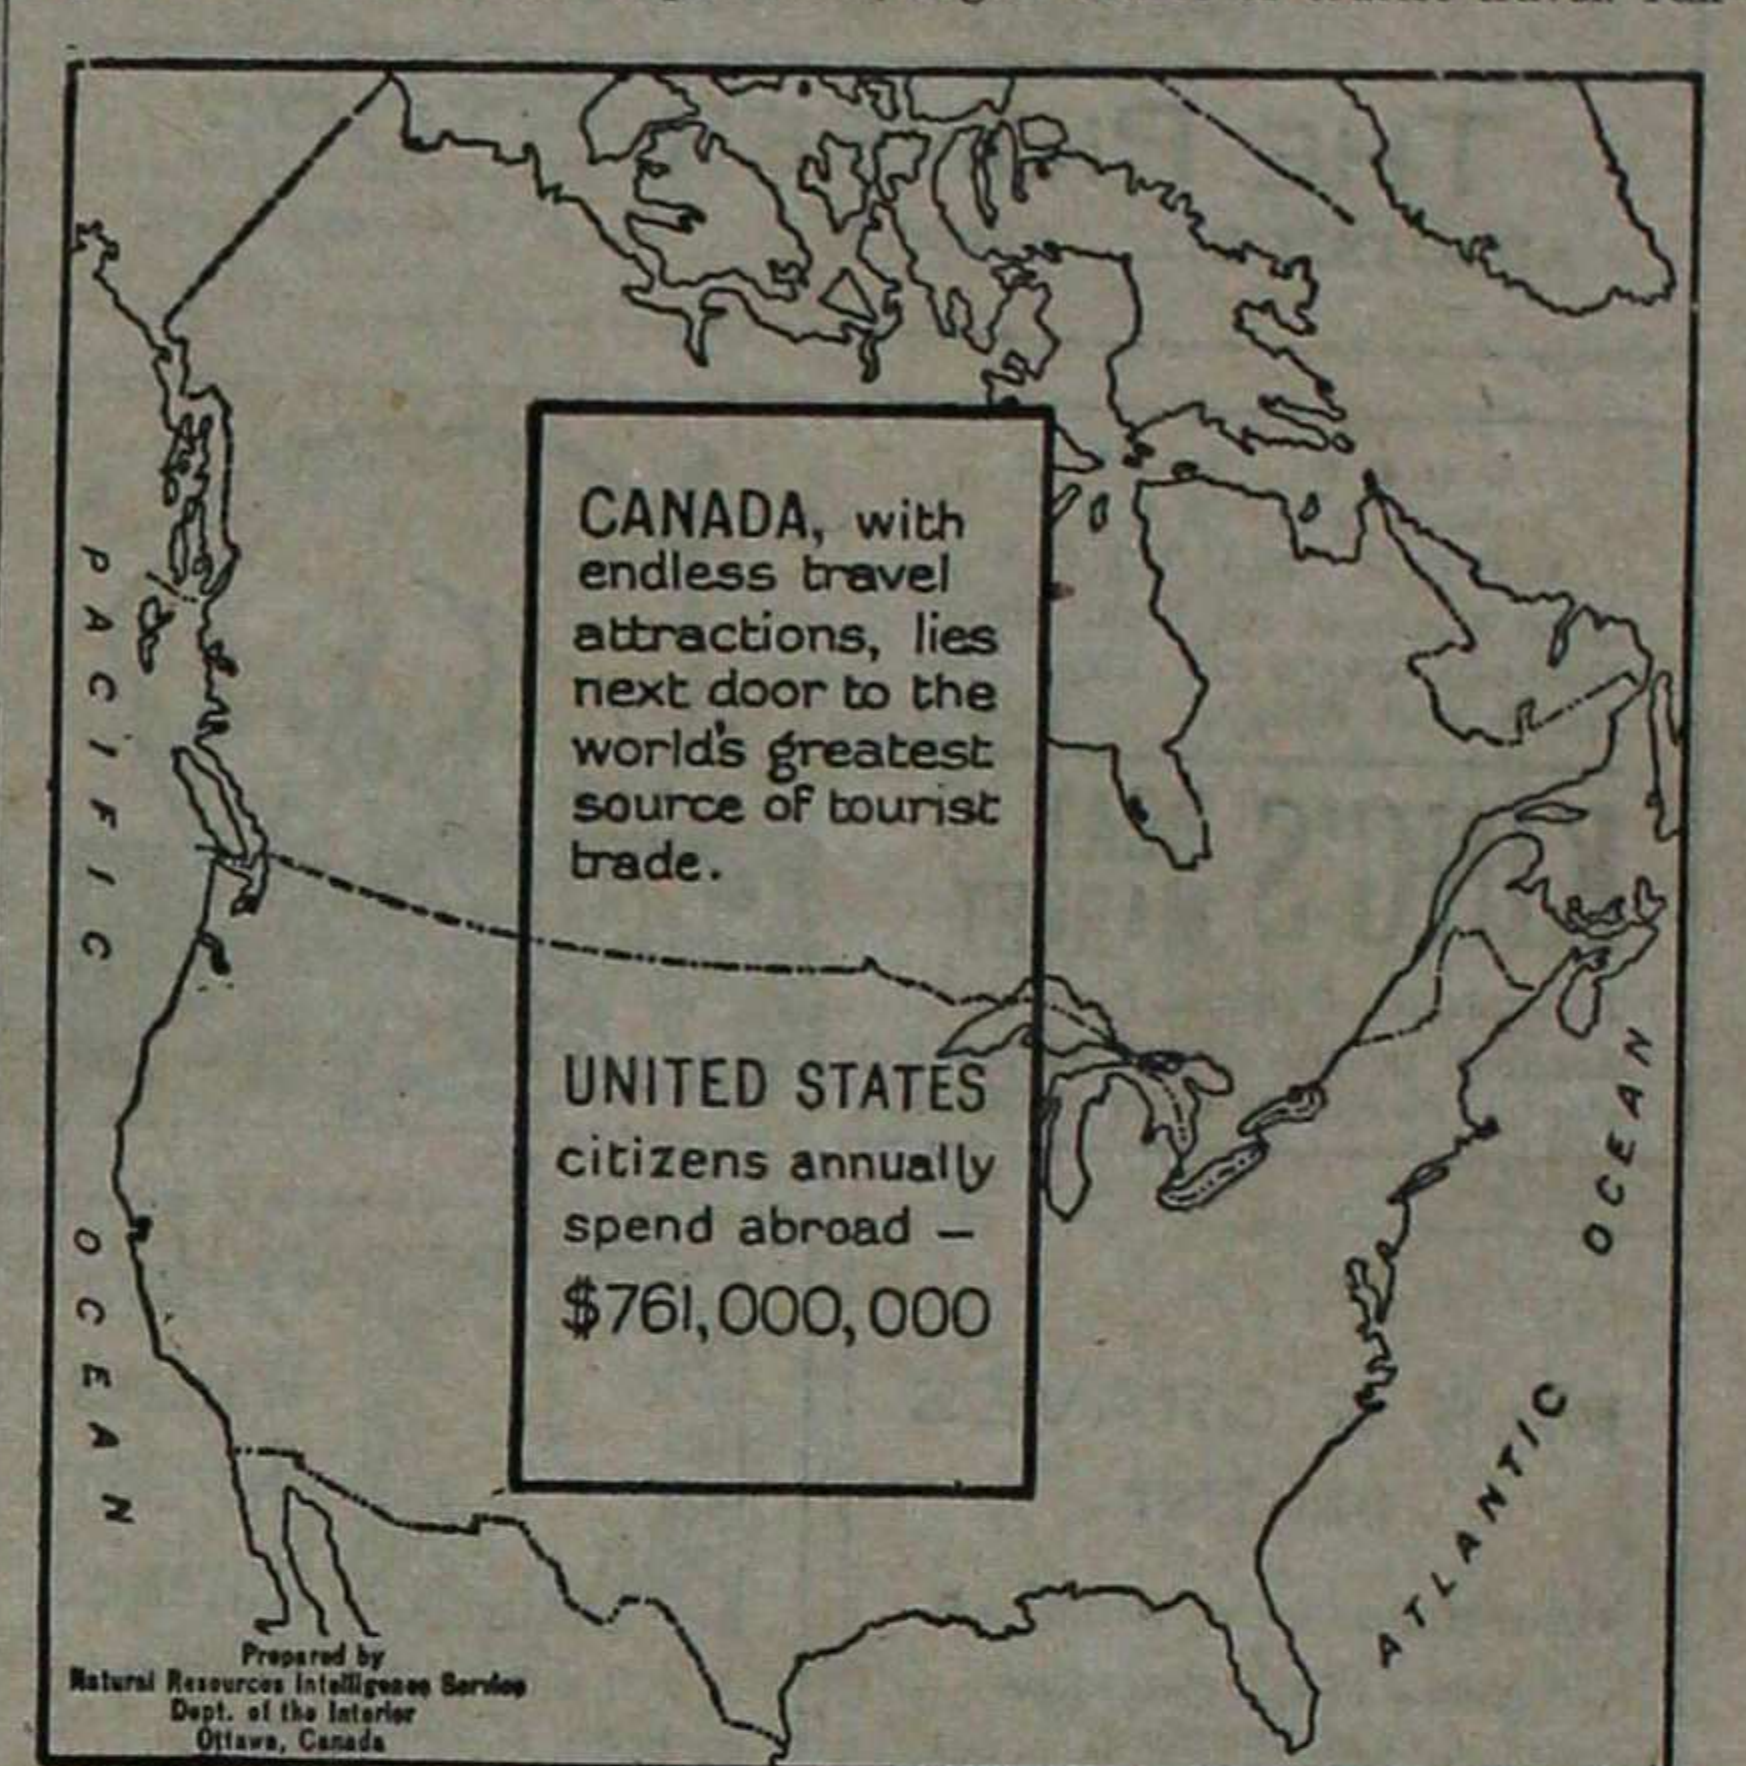

Several hundred rattlesnakes have been found in a single den.

Right At That

To test their knowledge of English the native students in a Chinese Christian college were asked to give in their own language the meaning of certain phrases, including "Out of sight, out of mind." One of them summed up the situation in two words—"Invisible, insane."

Canada's Matchless Advantage In Relation To The Growing Tourist Trade From U. S.

If the volume of United States tourist travel continues to grow at anything like its recent rate, it will be only a matter of two or three years until the amount of money expended by Americans abroad reaches the colossal sum of a thousand million dollars a year. For 1926, according to the United States Department of Commerce, the outlay of American tourists was roughly \$761,000,000—or nearly twice as much as the Dominion Government collects in tax revenues in an ordinary year.

Canada's position in relation to this trade is one of matchless advantage. Already our tourist business represents a big item, the expenditures of tourists in the Dominion amounting,

en all in all, there is probably no other country so favorably situated for attracting tourist trade.

The warm welcome which Canadians extend to visitors is an ever-growing influence in directing travel toward the Dominion. Those who come gladly return again and bring their friends with them.—Charles Stewart, Minister of the Interior.

Banting Sweet Corn

New Variety That Matures In Less Than Seventy Days

The new Banting corn originated by the Division of Horticulture of the Experimental Farms System, is proving so valuable in the Prairie Provinces that steps are being taken to produce large supplies of seed. This variety of sweet corn, practically equal to Golden Bantam, becomes ready for use in less than seventy days, which makes it adaptable for general use in the home and market gardens of colder parts of the Dominion. A considerable quantity of seed of the Banting corn was produced at the Morden, Manitoba, Experimental Station last year. This year the stock is to be multiplied at some of the other Western Experimental Stations.

Garden Roses

Five Hundred Varieties Have Been Tested Out In Canada

Roses have been under test at the Central Experimental Farm for forty years, and observations on the relative hardiness, attractiveness, blooming season, freedom from disease, and general merits of different varieties have been made and recorded. Some 500 varieties are now being grown in the flower gardens of the farm. The results of these years of investigation are given in a bulletin entitled "Hardy Roses" which is distributed by the Publications Branch of the Department of Agriculture at Ottawa. An interesting list of roses recommended for small gardens is given in the bulletin. They are all varieties which have been grown successfully at Ottawa. Among the roses in the list are three Hybrid Perpetuals of outstanding merit. One, Frau Karl Druschki, is acknowledged to be the finest white rose in cultivation. It is a strong, healthy grower with an abundance of bloom throughout most of the season. Another very popular hybrid perpetual is Mrs. John Laing, a rosy pink, fragrant variety which does well in town gardens. The third variety is the Hugh Dickson, a very attractive crimson, shaded scarlet flower, vigorous, and a free bloomer.

Hybrid Tea Roses recommended are Caroline Testout, a reliable, bright warm pink variety, Gruss and Teplitz, a very fragrant and hardy crimson rose, and La Tosca, a pale pink. Perpetiana roses recommended are: Mme. Edouard Heriot, a free vigorous bloomer with a wonderful combination of coloring, Souvenir de Claudius Pernet, a beautiful yellow flower, and Willowmere, a hardy, continuous bloomer of unusual color.

B.C. Lumber Production

Lumber production in British Columbia in 1927 totalled 740,230,000 feet board measure, an increase of 27,500,000 feet over 1926. The principal export markets for British Columbia lumber and forest products were the United States and Japan. The value of the lumber production in the province last year is placed at \$83,078,000.

World's Grain Show

Promoters of the proposed World's grain show to be held at Regina, Saskatchewan, in 1932, are forwarding their plans as rapidly as possible. The Saskatchewan legislature and the Regina Industrial and Agricultural Association have endorsed the project, and the federal government will now be approached with a view of getting its approval and support.

C. P. R. Adds Further Trackage

Photos show the huge area covered by the railway tracks of the Canadian Pacific Railway around the harbour of Vancouver, also the new elevators recently constructed.

Over one hundred miles of trackage will shortly have been laid by the Canadian Pacific Railway in serving the ports of the Vancouver District, is shown by the extent of the works now underway about that city.

An indication of the programme of extension of the already multifold trackage facilities is given in the plans being carried out at Pier B-C at the foot of Granville Street, and in the proposed new C.P.R. yard at the south end of the second Narrows Bridge, and of the allowance for further additions when necessary.

Mr. C. A. Cotterell, C.P.R. General Superintendent, has issued figures demonstrating the vast extent of ex-

istant trackage facilities exclusive of main and subsidiary lines running through the yards for the passage of through and local trains, serving Vancouver and her sister ports.

On the north shore to the south end of the second Narrows Bridge, the C.P.R. has more than 9 miles of trackage. From the south end of the second Narrows Bridge to Coal Harbor are another 27 miles. The False Creek Yard comprises 27 miles, and the south False Creek Yard has between three and four miles. In the Coquitlam Terminal Yards, serving both Vancouver and New Westminster, there are 22 miles of trackage, with yard capacity for double that mileage should it become necessary.

Another four miles of yard rails lie west of the Fraser River Bridge.

This trackage, so far as the C.P.R. is concerned, is not only taking care of a steady and normal growth in trade through the great port, but also handling an abnormal expansion in westward grain movement. Additions have been made and others will be necessary to care for this growing westbound traffic, which reached a peak in the crop season of 1927-28. The Canadian Pacific's first westward wheat shipments were made in 1922, attained more than 500,000 bushels in 1923-24, and reached the record this spring of 53,000,000 bushels shipped through the port before the end of February.

ABBOTSFORD

Mr. Kunz, who is to address a meet-
ing in Abbotsford under Men's Club
auspices next Monday, is attracting
widespread attention by his lectures
before the various service organiza-
tions at the Coast. Those interested
in international politics are expectant
of a most instructive talk when Mr.
Kunz appears here.

Mrs. Hannah Fraser participated in
the reception tendered Hon. E. D. Bar-
row and his bride by the Chilliwack
Liberal Association in Chilliwack last
Friday.

Dr. J. M. McDiarmid has purchased
the building next to the Swift residence
being used as a medical office, and in-
tends to make a number of improve-
ments.

A capacity audience attended the
Mossman concert, given in Gaisley hall
Friday, the program proving well up
to every expectation.

Mrs. David Fraser had as week-end
guests Mr. and Mrs. S. Franklin and
daughter of Vancouver.

O. W. Benedict, former manager for
the Lee stores here, is busy preparing
his grocery stock in expectation to
opening his store in the Mann block
on Saturday of this week. His store
will be operated on the cash basis, with
prices accordingly.

Mrs. R. Walker entertained at tea
yesterday, guests being Mrs. W. Phil-
lips, Mrs. E. Phillips, Mrs. J. Trussler,
Mrs. E. Birks, Mrs. Kelly and Mrs.
Burns.

Miss Holtsbaum resumed her duties
at the News office this week, after a
short holiday in Provost and Edmon-
ton, Alta. Maurice Brydges, formerly
of Abbotsford, is engaged in the Pro-
vost bank, and sends his regards to
Abbotsford friends.

A surprise party visited Mrs. Little
today, guests being Mrs. R. Walker,
Mrs. W. McClenahan, Mrs. Hulbert,
Mrs. T. Burns, Mrs. Kelly, Mrs. Do-
ney and Mrs. Atkinson.

Patricia Gray, daughter of Mr. and
Mrs. W. Gray, the Mill, participated
creditably in the recent tournament
held on the grounds of Mr. and Mrs.
G. Herrman, West Vancouver, by jun-
ior members of the Vancouver Riding
and Driving Club.

Mrs. Lee visited her daughter, Mrs.
Buchanan, at Lynn Valley, for a few
days this week.

Fred Barber, who has managed the
Rae Shoe Store here for the past year,
announces that he has purchased the
stock and connection of the branch
here, and will continue in business in
Abbotsford.

Mother Would Have Meats Inspected

Editor News:
As mother of a young family, I would
ask if a proper inspection of meat is
made before it is butchered for human
consumption in Matsqui district. An
epidemic, slight it is true, of scarlet
fever and diphtheria has broken out,
and it would be wise to make sure if
one of our chief articles of food, meat,
is wholesome. We have insisted that
tuberculosis be checked, and milk made
comparatively pure, we have said much
and with reason, about Oriental-grown
garden truck. So it is only right to
have meat inspected. The reason I
write this is that disquieting rumors
are to be heard about cows and swine
being turned over to the butcher in
badly diseased condition, the owner
doing this to avoid total loss of the
animal, and of a local family being
made ill by sausages of doubtful con-
dition. The public can doubtless buy
properly government-inspected meats
if they wish, but why not help out the
local producer by proper examination
of all animals taken to the slaughter-
house, if it is not being done—and I
do not think it is.

M.E.H. Matsqui.

A letter to the Editor:

"Dear Sir—I got your dune what I
owe you. Now be patient. I ain't
forgot you, please wait. When some
other folks pay me I pay you. If this
was judgment day and you was no more
prepared to meet your maker as I am
this account you sure would go to hell.
Hoping you will do this, I remain your
very truly".

Recent Bride Showered At Clayburn

Complimenting Mrs. Cameron Yule
(nee Miss Marie Trowsdale), a pretty
shower was given in Clayburn on Fri-
day evening, the hostesses being Mrs.
T. Ayling and Mrs. Nelson Trowsdale.
House decorations were most attrac-
tive, lilacs, narcissi and other spring
flowers predominating. The presen-
tation of the gifts was made from a
decorated wagon, drawn by Master
Tommy Trowsdale. A pleasant even-
ing was enjoyed with games and dan-
cing, music being played by Mrs. Gal-
lagher of Vancouver.

The wedding of Mr. and Mrs. Yule
occurred in Vancouver last week. Mr.
Yule is engaged at the Walters lum-
ber mill, Clayburn.

Clayburn Settler Joins Prison Staff

Mr. D. Kennedy, who has been re-
siding on the Simpson farm under the
Empire settlement scheme, is leav-
ing to join the New Westminster peni-
tentiary staff. He was formerly a
member of an English police force.

CLAYBURN

A cricket club has been organized at
Clayburn under direction of Rev. Mr.
White, and the first match of the
season is arranged for Saturday next
on Clayburn football field, when the
"Dads" team will play several innings
against the "Lads." All interested
in this ancient English pastime are
invited to attend.

The home cooking sale, held by the
Ladies' Aid in Clayburn store, netted
\$14.

Miss Chrissie Macbeth of Peardon-
ville is the guest of her brother and
sister-in-law, Mr. and Mrs. W. Macbeth.
Mr. and Mrs. Gallagher of Vancou-
ver are the guests of Mr. and Mrs. M.
Havery.

Mrs. J. Kerr is visiting friends in
Vancouver for a few days.

ST. MATTHEW'S CHURCH

St. Matthew's Church
Dear Mother (and Father too, of course
Next Sunday, May 13th, in your St.
Matthews Church, there will be re-
vived in this parish the observance of
what has been known for some hun-
dreds of years in the Mother Church
in England, Mothering Sunday, when
Mothers and Motherhood are especially
remembered before God.

Will you come to the church next
Sunday with all the family possible,
and help us with your presence and by
fellowship of your worship, to under-
stand and appreciate more fully:

- (1) Our Own Mothers (God bless them).
- (2) Our Holy Mother the Church (God bless Her too).
- (3) The Mother of Gods son, Mary Most Blessed.

Remember the "Bible Mothers" "The
Mothers of Salem their children
brought to Jesus".

Bring yours if you are able, and if
they are away from home come and
pray for them; or if they are at Rest,
come and join them in "The commun-
ion of the Saints".

Sumas Council Re-Appoints Auditors

At Saturday's meeting of Sumas municipal council, plans for changing the railway spur crossing the main road to serve Delair condensary, were approved. The track is to be moved 25 feet north of its present location.

Kendall, Barr and Co. were re-appointed municipal auditors for 1928, and W. W. Johnston auditor for the School Board.

A grant of \$200 was voted to the agricultural association. Details of a ditching agreement were confirmed, whereby the B.C.E.R. Co. will put culverts under the east Kenny and Angus Campbell roads, and clean out the ditches, and the Sumas Dyking Engineer will have one side of the Kenny and Campbell roads ditched, in order to drain property owned by W. L. Blatchford, M. Murphy and others.

Well Known Abbotsford Resident Dies

Abbotsford residents were surprised to learn of the untimely death of Frances Thomas Chapman, who passed away at his home here on Thursday evening last, after a brief illness from erysipelas. Deceased was in his 52nd year, and a native of Ontario, coming to Abbotsford eight years ago from The Pas, Manitoba.

Interment was made to Hazelwood cemetery on Sunday last, the funeral being formally attended by members of the Orange lodge, of which order deceased was a life-long member, and Native Sons' assembly, in which he held office. Services were conducted at Trinity church and the graveside by Rev. T. S. Paton, B.A.

Deceased is survived by his widow, one daughter Francis, and one son James, at home, and by eight sisters. One brother pre-deceased him.

The late Mr. Chapman followed the occupation of railroad worker previous to coming here, when he obtained work at the local lumber mill, where he has since been employed. He was also caretaker of Jubilee and Gaisly halls. He has held the office of Grand Master of the local Orange lodge, and was secretary of this branch, and chaplain of Sumas Prairie Native Sons Assembly at the time of his death.

Former Abbotsford Girl Being Presented To King And Queen

Miss Isobel Burnada, former Abbotsford girl, and now internationally-known operatic star, will be presented before Their Majesties at Buckingham Palace at the first court of the season this week. Known here years ago as merely a retiring little girl, suffering from a physical deformity, Miss Burnada's professional career is an inspiration to all, and a real romance in which sterling character, perseverance and ambition have played deciding parts.

Norwegians Aid Canada's Development

1. A group of Norwegians photographed after having spent a few years in Canada.
2. Young girl dressed in the costume typical of her native country.

By introducing into Canada 9,500,000 roughly 69,000 are of Norwegian origin. The annual average influx of immigrants from Norwegian ports is 5,000, the majority travelling by Canadian Pacific ships to Quebec and Montreal in the summer, and St. John, N.B., in the winter. These vessels are splendidly equipped for this purpose and carry as many as 900 immigrant passengers at a time, considerably exceeding the capacity of other lines.

The settlers travel from Oslo and Christiania by the weekly service maintained by the Ellemann Wilson Steamship Line to Hull, across England by the London and North Eastern Railway, and embark at Liverpool. Special C.P.R. trains run from Quebec through to Winnipeg for distribution of the immigrants throughout western Canada.

The Canadian Pacific maintains agencies for the service of prospective Norwegian immigrants at Alesund, Bergen, Oslo, Stavanger and Trondhjem.

Legion Holds Annual Meeting

The local branch of the Canadian Legion held their annual meeting last week, when the following officers were elected: Arthur Bullock, president; H. T. Peters, vice-president; Frank Thompson, secretary. Executive: T. Millard, R. Ralston, J. Aitken, J. Trimnell, W. Mailes. Representatives of zone committee: H. T. Peters, R. Ralston; Trustees: J. Rowley, R. Ralston. Archie Payne, delegate to the provincial Legion convention, held recently in Kamloops, reported upon proceedings at the Interior meeting. It was hoped, he said, that re-valuation of property purchased under mortgage agreements would be obtained for soldier settlers, and that the pensions situation would be adjusted.

An open meeting, when the ladies will be entertained, is to be held next month.

The Legion is offering for sale the four lots on Essendene avenue east purchased some time ago from the government, a price being set of \$300 for the corner, and \$200 each for the inside lots.

ABBOTSFORD SCHOOL

Proficiency list of Abbotsford public school for March and April: Div. 1 (Entrance) figures are percentages: Mary Bennett 84; Ethel Serl 82.3; Sylvia Harrop 81.5; Kate Vanetta 80.5; Ivy Bailey 79.4; Gordon Gosling 76.9; Tony Fraser 75.8; Albert Wahlman 75.1; Iola Walker, Celina Rowles 73.5 (tie); Sadie Groat 73.5; Ethel Combs 73.1; Dorothy Spaulding 70.8; Marie Moret Ervin Wright 68.8 (tie); Ethel Johnson Betty Irving 68.6 (tie); Giolanda Bassani 67.9; Franklin White 67.4; Margaret Slater 67; Norris McNelly 65.8; David Rooney Tom Irving, Leslie Groat 63.8 (tie); Ida Horne 63.3; Lena Hayne 60.3; Arthur Rosie 56.6; Connie Bolster 55.8; Daryl Insley 49.2; Bud Hadrell 38.3; W. CHAPTER XXI.—Continued

Thus appealed to, Danny Corbett went over to the couch and carefully inspected the young thing that was likely to make inroads in his hard earned income. He put his chapped and dirty little hand very lightly on the glassy, smooth head, and felt its tiny beat. He gently touched the velvety cheek and found it soft as a rose-leaf to his fingers. He put his hand in his pocket and drew out thirty cents in change and looked hard at it. He may have been thinking of cold winds and aching legs—he knew something of them. But his answer was, "Sure Mike! I'll do it. Are you pretty sure her mother will die, Ma?" Danny's tone was eager.

"We ain't wishin' her mother no harm, Ma," Rosie quickly interposed, seeing the rebuke that was coming to her business partner. "We ain't wishin' nobody no harm." Rosie was very anxious not to prejudice the case. "But we know there is always a danger—you know yourself, Ma, that none of us knows one day from another, we're here today and away tomorrow, as I have often heard you say—and Danny and me are just talkin' it over in case somethin' should happen—that's all."

The warm heart of Maggie Corbett was tender to her offspring at that moment. "Look at that, John, would you? Good little things, after all, and yet it was only this mornin' they were fightin' like drunken shantymen. I often thought if they had had a baby in the house it might have softened them. Well, don't be settin' your hearts on this wee one, for her mother is not goin' to die, I don't think; though you never can tell about a woman when her man has gone back on her."

Outside the snow was still falling. The evergreen trees were bending with the weight of it, their branches hanging down like great white bears paws. Christmas Eve surged forward with all its infectious gladness as the crowds of belated shoppers increased. The electric fans in the win-

YOUNG WOMEN SUFFER MOST

These Two Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Ayer's Cliff, Quebec.—"I have been teaching for three years, and at the end of the year I always feel tired and have no appetite. I was a awful sick each month too, having pains in my back until sometimes I was obliged to stop working. A friend recommended Lydia E. Pinkham's Vegetable Compound to me and I heard many women telling how good it was so I thought it would help me. And it did. Now I take six bottles every year and recommend it to others."—DONALDA FANTEUX, Ayer's Cliff, Quebec.

"Unable to Work"
Canning, Nova Scotia.—"I had irregular periods and great suffering at those times, the pains causing vomiting and fainting. I was teaching school and often for some hours I would be unable to attend to my work. Through an advertisement in the papers I knew of Lydia E. Pinkham's Vegetable Compound, and it has been of great benefit to me, the troubles being completely relieved."—LAURA J. EATON, Canning, King's County, Nova Scotia.

W. N. N. 1728

dows were hard pressed to keep back the shooting frost ferns, which threatened to hide the season's offerings. Handsome cutters, with beautiful robes thrown over the backs of the seats, stopped at the curb to let out hurrying shoppers; delivery boys on foot, on wheels, in wagons, loaded with parcels, hurried to the suburbs of the city, sometimes pausing to look in at uncurtained windows where happy families gathered around sparkling tables—families so happy over the arrival of guests that they forgot to draw the blinds and so allowed some of their happiness to overflow into the street. Rosy shaded lamps threw patches of radiance on the glistening snow. Christmas wreaths tied with satin streamers glowed deeply red against the windows. The pulse of the city was beating with laughter and sleighbells.

At the corner of Second Street and Jasper Avenue a congested street car stopped to let out a mock of little girls and boys on their way to the Christmas tree in the First Baptist Church. Certain of the little girls, with their curls protected from the falling snow by being tucked safely away under their togues, were carrying mysterious pasteboard boxes containing sashes and bows and wings for the fairies. Others of them were darkly hooded and masked, their identity and sex entirely unguessed, for were they not cast for the dreadful witches of Shadowland? Accompanying them was a liberal sprinkling of parents, mostly mothers, with a few self-conscious fathers who had the appearance of having been dragged out. The mothers had an air of very conscious unconcern, as if they did not know their little boys or girls were going to take a part that was bound to be the very best thing on the program.

The Salvation Army Citadel blazed with light and pulsed with activity, for the big supper, where all were welcome, was going on, and the odors of turkey and sage and onions, drifting out into the street, compelled the reluctant ones to go in. At midnight, when the bells were ringing, the snow suddenly stopped in that abrupt Alberta way. The city's lights were so many and so bright against the deep India blue of the sky, it was hard to tell them from the stars, but high overhead was to be seen the North Star, beloved of all bewildered travellers. Now it twinkled and gleamed above all these scenes of good fellowship and merry-making with unmistakable approval. Into the uncurtained window of the Corbett's big room it peered with a deeper interest and kinder understanding, for it could see that the Winnipeg couch was drawn out from the wall to make it into a full-sized bed, and in it there slept the unperturbed young Lili with Rose Corbett on one side of her and Daniel Corbett on the other—her two new friends, who had covenanted in her presence and in the presence of each other to furnish her with shelter, care and sustenance in the event of her mother's death. Rose and Daniel Corbett—the underwriters!

CHAPTER XXII.

It was Christmas afternoon when Helmi awakened—Christmas afternoon, the very sound of which brings pictures of children playing with trains on living-room floors, satisfied with turkey and candy, starry-eyed with presents, numb with surprises and joy. Christmas afternoon! Of all the spicy, perfumed, sparkling glorious afternoons of the year the most dazzling and glorious; not merely an afternoon or a day that can be marked on a calendar or divided into hours like other afternoons—not that at all. Christmas afternoon is an atmosphere, a perfume, a sensation, a feeling, a spiritual experience.

It was Christmas afternoon when Helmi awakened. Number 18 in the North Star Rooming House did not suggest festivity, with its bare, buff walls, dull gray paint, elm dresser, iron bed, bare floor, with one strip of Japanese matting worn in the middle down to the threads. But Helmi was not left entirely without some gleam of Christmas, for Rose and Danny who were going to the Salvation Army Cantata that night, went singing down the hall:

"Away in a manger, no crib for a bed,
The little Lord Jesus laid down
His sweet head,"
and it brought to Helmi's mind the Christmas story; and because her own heart was more tender than it had ever been, owing to the rise and fall of the little white veil which covered Lili's face, she loved the little Christ Child more than ever, and thought of Him and His pale mother as they lay there in the manger with the noise of cattle all around them.

"The stars in the sky looked down where He lay,
The little Lord Jesus, asleep on the hay."

Rosie, just outside the door, was

The tender leaves of the tea plant are extremely sensitive to climatic changes. That's why Red Rose Tea is packed only in aluminum—so it will never lose strength or flavor through contact with dampness. Every package guaranteed to be in perfect condition.

WHITE STAR LINE CANADIAN SERVICE

singing as she 'did' the lineoleum in the hall with dustless mop; Danny was working farther down the hall. Helmi was awakened from her dream by the entrance of a little man with a slender black bag in his hand. He came in without knocking, and stood at the bottom of the bed regarding her critically. Before he could frame a question Mrs. Corbett had arrived, having seen the Doctor's car at the front door.

Mrs. Russell, who lived in No. 16 and did the cleaning in the City Hall, and therefore knew something of the correct forms of procedure, had notified the Department of the happening in No. 18. Dr. Symond came over at once. No one likes to be disturbed on Christmas afternoon, when the delicious sizzle of a turkey pulsates in the atmosphere of the house and one has just helped to put two leaves in the dining-room table. Dr. Symond was prepared to be quite stern. Indeed, as a representative of the city authorities how could he help being stern with these unregulated young women who leave their babies on the steps of the City Hall, so to speak. It was becoming entirely too common, and the Property Owners' Association at their last meeting were complaining about it; properly so, too, for they were the people who had to pay the bills. Everyone when in need rushed to the City—widows looking for help—unemployed—homeless—unfortunate girls—all come to the City.

(To Be Continued.)

Little Helps For This Week

"Be thou faithful unto death, and I will give thee a crown of life.—Rev. 11. 10.

Why should our spirits be oppressed
When days of darkness fall?
Our Father knoweth what is best,
And He hath made them all.
He made them, and to all their length
Sets parallels of gain;
We gather from our pain the strength
To rise above our pain.

—Alice Cary.

God, who in mercy and wisdom governs the world, would never have suffered so many sadnesses, and have sent them especially to the most virtuous and wisest men, but that He intends they should be the seminary of comfort, the nursery of virtue, the exercise of wisdom, the trial of patience, the venturing for a crown, and the crown of glory.—Jeremy Taylor.

Taking No Chances

Nurse—"Whom are you operating on today?"

Orderly—"A fellow who had a golf ball knocked down his throat at the links."

Nurse—"And who is the man waiting so nervously in the hall—a relative?"

Orderly—"No, that's the golfer—Scotts gentleman. He's waiting for his ball."

"Is that all the work you can do in an hour?" asked Sam's new employer. "Well, boss," said Sam, "I dussay I could do moh—but I nevah was one for showin' off."

Salesman For Face Cream Learns a Good Lesson

Mr. Vandivier, New York, writes: "I was a salesman of creams for healing pimples, blemishes, etc., but when my face broke out with blotches, pimples and blackheads, I tried one salve after another with no results. Finally I decided I would have to get at the cause—constipation. I was amazed to find that within a few days after taking your vegetable laxative pills for constipation my skin took on a new healthy look."—CARTER'S LITTLE LIVER PILLS. All druggists—25c and 75c red pkgs.

Have Renamed Destroyer

Implied Compliment To Canada Seen In Action Of Admiralty

An implied compliment to Canada is seen by officials of the Department of National Defense, Ottawa, in the action of the British Admiralty in perpetuating memories dear to the Dominion in the renaming of a destroyer of the Royal Navy.

When Canada decided to rename the destroyers Torbay and Toreador, the two vessels taken over by the Royal Canadian Navy, to Vancouver and Champlain, it was found that another destroyer of the British fleet already bore the name Vancouver. However, the Admiralty at once offered to rename the ship of the home fleet, to avoid any confusion, and to allow Canada to use this distinctive title.

Advices received at Ottawa headquarters are to the effect that, effective April 1, the former British destroyer Vancouver will be the Vinny.

A Stylish Blouse

It's color these days, that makes a garment stylish! With a fifteen-cent envelope of Diamond Dyes, you can make an old or faded waist as smart as any on display. Keep all your clothes stylish—through the quick magic of home dyeing.

Beautiful dyeing or perfectly gorgeous tinting is easy, if you'll only use original Diamond Dyes (true dyes). Brighten the house, too; curtains, spreads, etc., are Diamond Dyed in an hour or less; right over other colors.

FREE: Your Druggist gives you the Diamond Dye Cyclopaedia; valuable suggestions, easy directions, actual piece-goods color samples. Or write for illustrated book Color Craft, post-paid from DIAMOND DYES, Dept. N16, Windsor, Ontario.

THE NEW GERMANY

Enthusiasm For Military Training Gives Place To Interest In Outdoor Sports

Not the least significant of the characteristics of the new Germany, as contrasted with the old, is its growing interest in outdoor sports.

The youth of Imperial Germany were conspicuous for their enthusiasm for military training. The youth of republican Germany, particularly those in school, are worrying their parents because they seem as much or more interested in sports and games as they are in their lessons. This turn of interest is not confined to the extremely young. A great many Germans are philosophizing on whether it is a healthy sign in the national life that 50,000 people should go to a football match, as it is now quite common for them to do. The alleged extravagance of German municipalities have been partly directed toward developing public playgrounds, and swimming pools, and baths. Self-respecting German communities are getting the idea that one of the obligations of modern municipal authorities is to provide healthy opportunities for recreation for their citizens. There is a tendency to devote large tracts, 100 acres or more, sometimes on a scale which would do credit to Imperial Rome, to a series of athletic fields, racecourses for runners, and motor bicycles, a succession of pools and swimming baths—occasionally nearly a hundred yards long—tennis courts, a sylvan open-air theatre and a large gymnasium, plus a restaurant where all kinds of refreshments are served.

Wedding Bills In Japan

Marriage in first-class style in any of the larger Shinto shrines in Tokio, Japan, costs the equivalent of \$35 gold. The ceremony includes the attendance of high priests, a clerical orchestra with flutes, cymbals and pipes, and all possible trimmings. Second-class weddings cost \$25 and so on down to weddings classed as "pine," "bamboo" and "plum," the plum style necessitating a shrine fee of \$7.50.

Jones (as he treads on tack)—"I wish you wouldn't be so careless in throwing tacks about, Mary."

Mrs. Jones (placidly)—"Henry, you are getting meaner every day. I can buy a whole package of tacks for a nickel."

THE BABY TEETH

How many should there be? "Ten little fingers and ten little toes"—making twenty in all—and there you have their number. Easy to remember isn't it?

And when should you begin to look for them? About the sixth or seventh month.

And which comes first? As a rule, the lower front teeth, the central incisor.

So after all baby's fretfulness he has a brand new tooth or two, so white and so sound they look, that you never give a thought to future tooth troubles.

Then the other eighteen or nineteen white coated little "millers" will follow at somewhat regular intervals until Sonny is two years old, when he should have his full temporary set.

These are the temporary or deciduous teeth, being known also as the "milk teeth," from which you will be aware, of course, that they won't be retained right through adult age. They should all remain in place, however, until about the seventh year, when, through the natural process of shedding, they commence to be lost.

Then as the time approaches for the eruption of the second set, unless the first teeth are sufficiently separated in front to allow one or two thicknesses of blotting paper between them, the arches have not properly expanded and the second set is certain to be crowded and irregular. In such a case, the family dentist should always be consulted.

Since Sonny is going to lose these small teeth in good time and get a nice new set, why bother to care for them?

Well, little Sonny does not want a tooth-ache any more than do you, and for several other good reasons of which more to follow.

Too Much Food

People These Days Eat More Than They Need

The problem interesting more people than any other in this country today is girth control. There is no topic of conversation more general and more personally important to multitudes of people than how to keep from getting too fat. This is a strange phenomenon in a world that, from the dawn of history, has been hard put to it to get enough to eat. It is probable that there never has been a time when more than half of the world's population was not more or less continuously hungry, but in the United States food is so abundant that everybody must be warned not to eat too much, and there is a protest against reclaiming land lest its cultivation should increase an already embarrassing surplus of foodstuffs.

Canada needs a larger population, but to bring in people for whom proper provision has not been made beforehand will only complicate the situation. Those who are for settlers at any price do not think out the results of their policy.

Minard's Liniment for Backache.

That man doesn't live who has not thought he had all the elements of greatness in him.

Extending Air Mail Service

If Satisfactory Winnipeg May Be Served In Near Future

Plans are being completed by the post office department for an extension of the air mail service connecting large centres like Montreal and Toronto with the first land stop of trans-atlantic liners. The contract for the service to Toronto has not yet been actually awarded, but will be in a short time. It will give Toronto quick delivery of letter mail to and from Europe. If the Toronto service proves satisfactory it is probable that in another year an extension of it as far west as Winnipeg will be attempted.

Nothing Like It to Relieve Colds
In formula and action, Buckley's Mixture is different from all other remedies. It literally "acts like a flash" in conquering coughs and healing the inflamed parts. The instant relief that follows the first dose is multiplied 40 times in a 15-cent bottle! "Buckley's" should be in every home. Your druggist sells it under a money-back guarantee.

PERMANENT BUILDING PAPER
IT TAKES A SHARP BLADE
Healthy beards can be removed most easily with a sharp blade. So, too, can Hercules Permanent Building Paper be cut. It doesn't tear easily.
For this reason alone, carpenters and builders prefer Hercules. When using, handle it as roughly as you like. Hercules will not tear or crack. Hercules allows greater speed in using.
For various purposes, Hercules is made in three grades—x light, xx medium, xxx heavy. All grades are tested and proven wind proof and damp proof. A sample gladly sent on request.

Barber Shoe Co.

Having purchased the stock of the Rae Shoe Co., at Abbotsford I am placing it all

ON SALE

during the next few days, and hope to have the pleasure of fitting you and yours with some of the bargains.

It is my intention to continue to operate here permanently. I may say I have a lifetime of experience in shoe fitting in England and Canada and am a qualified practical graduate.

FRED BARBER

V. & B. Brand Better Feeds

Because of present-day unnatural conditions of propagation, the proper balancing of chick-rations is about the hardest problem the feed manufacturer has to solve. He cannot afford to guess.

Our Feeds fulfill the four essential requirements—merits proven.

Chick Starter

(with Cod Liver Oil)
Analysis: Protein 12.5%
Fat 4.5%; Fibre 3%; Carbohydrates 68%; Digestible Nutrients 82.6%.

Growing Mash

Analysis: Protein 15.5%
Fat 4.5%; Fibre 4%; Digestibility 76.6%.

Our Hardware Will Outlast the Building

QUALITY FIRST should always be the motto in selection of building hardware, because the difference in cost over cheap goods is so small that it is economy to specify the best—make your buildings permanent.

Now is the time to be thinking of
Garden Tools, Mowers &c

Fines of \$15 and costs were imposed upon two Abbotsford young men in Matsqui police court on Monday by Magistrate Bell, on charges of disorderly conduct at a Peardonville dance. A sentence to Oakalla would be imposed if they came up again, the magistrate threatened.

It is the intention of the police to strictly regulate dances, and will arrest in any breach of order.

H. H. Hanlon of Seattle was arrested

in Huntingdon last week for disorderly conduct, and fined \$40 and costs in Abbotsford police court by Magistrate Bell.

CARD OF THANKS

Mrs. F. T. Chapman and children desire to thank the many friends, and also fraternal organizations for their kindness and practical sympathy at this hour of their sorrow. They also express appreciation of the many beautiful floral tributes.

MATSQUI

The sturdiness of the Essex steel coach was again demonstrated on Sunday last when a collision occurred at Mission between cars driven by Joe Trethewey, Jr. and A. Beaton of Matsqui. Mr. Beaton's car, in which Mrs. Gamble and child were passengers, was rolled over twice, without breaking any glass or twisting the car body. The passengers escaped with bruises.

Miss Mildred Jensen of Bellingham visited her parents, Mr. and Mrs. Jensen last week. Miss Jensen is planning on taking a trip with Mrs. Ebbertson to her summer resort in California, soon.

Mrs. Goodridge has returned to Mount Vernon after visiting her parents, Mr. and Mrs. Carl Sward.

Mr. C. B. Sward, one of Matsqui prairie's pioneers died in New Westminster on Sunday at the age of 86. Mr. Sward is a former member of the Legislature, and was inspector of fisheries. He was the first Fraser Valley farmer to dyke his land.

Mr. Alex Beaton is confined to bed by illness, her sister, Miss Jones, is taking care of her.

Mr. Floyd Myhre visited here last week.

The S. S. Anel Johnson arrived in Vancouver last Friday afternoon. Among the passengers were, Miss Kaia Knudson, from Oslo, Norway, a granddaughter of Mr. G. Kemprud.

Miss H. Kemprud. Mr. Myhre motored to Vancouver to meet her. She is at present saying with Mr. G. Kemprud.

Miss Ellen Athey has returned to her home here, after visiting in Clinto B.C. for several months.

Mr. and Mrs. J. Kemprud's house has been moved from the back lot and is now by the restaurant, in order to make it more convenient.

Mrs. M. Hougren has been in poor health lately.

Telephone and power poles occupy so much of the road allowance on Turner road that traffic cannot pass, so it was stated at Saturday's meeting of Matsqui council. In the opinion of the councillors, fences and buildings will also have to be moved to permit proper use of the thoroughfare.

As the rails of the B.C.E. track just north of Abbotsford project so high that the road grader cannot navigate it, the railway company will be asked to make changes.

W. Roberts was given permission to cross the Yale road with a water main.

Disagreement of two neighbors residing near Abbotsford over a ditch was aired before the council, and the Reeve and Councillor Mutch were delegated to adjust the matter.

Complaints were made about strict application of pound laws by a deputy poundkeeper, and this matter is also to be investigated.

C. Nordin was awarded contract to haul gravel from Mt. Lehman gravel pit and spread it over parts of the Anderson road at a price of \$494.70.

Abbotsford lodge of Oddfellows will celebrate the 109th anniversary of their order in the theatre on Sunday, May 13, Rev. J. H. White officiating.
